Mach 1 Global Services Announces Chicago Station Expansion and Relocation

Tempe, Arizona – July 31st, 2017 - Mach 1 Global Services, a Domestic and International Provider of Transportation and Logistics Services, announces today that it has expanded its Chicago branch to a new location in Elk Grove Village, Illinois, effective July 31, 2017.

Mach 1 entered the Chicago market in 2003 and this new facility will enhance a full portfolio of services to include Domestic and International Air, Ground, and Ocean Freight. In addition to offering traditional Freight Forwarding Services, this operation will serve as a primary hub for Mach 1's internal Linehaul Network, Warehousing, and Contract Logistics for local Chicagoland clients.

Equipped with a tenured and strong leadership team already in place, we are thrilled to move into this new facility where our aggressive and caring staff is eager to contribute to the growth of the business.

Chicago serves as a Primary Hub Location for Mach 1's internal Linehaul Network and this relocation will foster opportunities for growth and strengthening of the product. Also, the location was strategically chosen to help bolster our asset based cartage service. Both are critical components to all Mach 1 Chicago product offerings to include specialty services such as Export Consolidations to the United Kingdom and Germany, LTL Ground Service to all USA points, and Comprehensive Air Freight offerings.

"Chicagoland, we are coming home! All of this is possible because of our loyal Mach 1 customers – thank you," said Jared Licata, Mach 1's Vice President of the Central Division.

The new Chicago facility is located at 685 Touhy, Elk Grove Village, Illinois 60007 and can be reached at 630-238-2005. For more information on Mach 1 Global Services, please visit www.mach1global.com.
